

DRIVERGE
VEHICLE INNOVATIONS

WHEELCHAIR ACCESSIBLE TAXIS

Driverge offers the widest selection of ADA compliant accessible taxis in the industry. We provide our customers with budget-friendly, market tested options that's right for your business and your clients.

Mercedes-Benz Metris WAV

A combination of style and innovative engineering, our Mercedes-Benz Metris is equipped with a ramp that folds flat when not in use, providing a level cargo area. Available with two additional tip & fold third row seats.

Toyota StreetSmart™

Our patent pending design allows for a removable ramp to be stowed upright – or flat on the floor. It can also be used outside of the vehicle to help with assisting wheelchair passengers navigate over curbs.

Toyota Sienna with In-Floor Ramp

This in-floor conversion has a manual pull-out ramp that stows below the floor. It's maintenance free design offers a low-cost side entry option with a 3-passenger rear bench seat.

Ford Transit Connect w/FlexFlat™ Ramp

Our Ford Transit Connect comes standard with the industry's most popular FlexFlat ramp design. A three-passenger fold & tumble 2nd row bench seat provides ample room for all riders.

ADA, FMVSS & CMVSS Compliant... and NYC TLC approved!

Driverge is the nation's leading wheelchair taxi provider in the USA. Call us about your accessible taxi needs, budget requirements, and OEM preference. We'll provide you with the most cost-effective options across all models and conversions, including Dodge, Ford, Mercedes-Benz, and Toyota minivans.
