Ideas made to move business

CannaCage™
Affordable, self-installed and shipped directly to you.

Secure transportation is key for anyone operating a cannabis-related business. But sometimes, security comes with a hefty price tag. If you need a secure transportation solution that utilizes your current vehicles and meets California's Bureau of Cannabis Control regulations, the CannaCage may be a perfect fit.

The CannaCage is a self-installation kit shipped directly to you for installation into your current vehicle, allowing you to carry your cannabis cargo in a safe and secure way.
