

Ideas made to move **business**

Refrigerated Ford Transit Connect

CannaVan™ Transporters

Drivege delivers secure cannabis transportation solutions.

As more states legalize cannabis, laws governing its transportation vary widely and you may feel an armored vehicle is your only option. The good news is that DRIVERGE offers multiple solutions to meet your needs and your budget.

Drivege cannabis transportation options include:

1. Custom solutions for new van installations
2. Convert your used van in certain conditions
3. Our self-installed CannaCage ships directly to you with easy build instructions

CannaVan™: Because not all cannabis vans should be built alike

Depending on your business needs and the regulations in your state, Driverge will work with you to develop the perfect solution for you. Just a few of the available options include:

Full front composite partition behind driver/passenger seats

Climate control and air conditioning options to meet your specific needs

Climate control with insulated doors and walls

Optional insulated side doors

Optional safes with cab area deposit slots

Optional 4-Camera Security System with GPS and Wi-Fi

Driverge Base Package van conversions include:

- Full-front composite partition behind driver/passenger seats
- Steel cage with walls, roof, flooring, and rear locking door
- LED cargo area lighting

Optional Features include:

- Locking Security Box
- Rear Loading Deposit Box
- Rear Cargo Air Conditioner
- Refrigeration
- Insulated Interiors
- Side Container Door Access
- Back-Up Alarm
- Vehicle Alarm System with GPS and Remote Start
- Steps and Running Boards
- Solid, double-locking rear doors (refrigeration vans only)

Driverge OEM Certifications

With more than 20 years in the van conversion business, we have earned rigorous certifications from Ford, Mercedes-Benz, and RAM. This allows Driverge to retain OEM factory warranties on all our conversions.
