CUT: SHORT

RAMP DEPLOYMENT: MANUAL

MPG: 36 CITY/ 36 HIGHWAY MPG

Wheelchair Accessible Taxis for a Modern City

The Driverge Toyota Sienna Hybrid FlexMaxx isn't just a vehicle — it's a tool for inclusion and efficiency in the taxi industry. Whether transporting families, individuals with mobility needs, or everyday passengers, this van ensures every ride is safe, comfortable, and accessible.

Driverge's patented Streetsmart™ ramp system is designed to meet the demands of the fast-paced taxi market. This innovative ramp can be stowed upright, flat on the floor, or positioned outside the vehicle to assist wheelchair passengers over curbs. It's a solution that ensures quick, efficient, and safe mobility for all passengers, making it ideal for taxi operators.

Key Features and Benefits for Taxi Operators

Flexible & Adaptable Configuration –

Seamlessly switch between accommodating a wheelchair passenger or up to five ambulatory passengers. This flexibility maximizes passenger capacity and revenue potential.

Optimized Seating Layout –

2nd Row: OEM remounted bench seats three passengers comfortably.

3rd Row: Available for a wheelchair passenger or additional luggage, ensuring no compromise on functionality.

Rear Ramp Loading/Unloading –

Designed for urban environments, the rear ramp simplifies passenger loading in tight spaces like driveways, standard parking spots, and one-way streets.

Durable and Reliable Construction –

Stainless-Steel Floor: The only accessible minivan with a stainless-steel floor, paired with an aluminum ramp for long-lasting, rust-resistant performance. Built to handle the wear and tear of daily taxi operations.

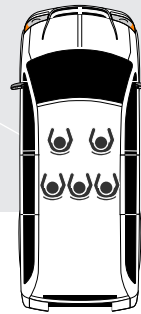

Warranty – Backed by a 3-year/36,000 miles standard industry warranty, providing peace of mind for fleet operators.

Certified and Compliant – Fully accredited by the National Highway Traffic Safety Administration (NHTSA) and the National Mobility Equipment Dealers Association (NMEDA). ADA/FMVSS compliant and approved for New York City Taxi and Limousine Commission (TLC) use.
