CurbSmart®

YEARS: NEW | **WHEELBASE:** 148" | **ROOF:** HIGH

CurbSmart® is Driverge's all-in-one curbside transport solution built for metro fleets. It serves both ambulatory and wheelchair passengers from a single vehicle, with a heavy-duty integrated lift and flexible interior options that adapt to any ridership mix, without compromising the OEM vehicle structure or safety systems.

Key Features:

- Structurally integrated lift system — preserves the OEM frame, body structure, and HVAC
- Retains all OEM safety systems for full manufacturer compliance
- Heavy-duty lift accommodates a 34" x 54" platform with 1,000 lb capacity options
- Corrosion-resistant composite aluminum construction with insulated, double-sealed doors
- Factory-quality appearance with a fully integrated design
- Optional bus door for dedicated ambulatory passenger access
- Choice of traditional fixed-floor seating or optional SmartFloor® with fixed, removable, or tip/fold configurations
- Engineered to meet FMVSS standards and Ford Pro upfitter requirements
- Optional Pivot Seats over the wheel wells to offer additional seating without compromising floor space.

SmartFloor™ is a patented and innovative floor system that can be added to CurbSmart®. Key benefits include:

- Wheeled seat bases let you easily move seats or wheelchair spots.
- No lifting needed — simply roll seats inside the van or onto the lift.
- ADA and FMVSS compliance.
- Flexible layouts boost opportunities and profit.
