VEHICLE INNOVATIONS

FORD TRANSIT
FOOD SERVICE & DELIVERY

Independent temperature controls.

Large food storage areas with pull-out racks use air circulation vents and fans to keep hot and cold compartments at desired temperatures.

Hot and Cold Food Transport, with Staff Seating and Wheelchair Lift Options

Whether you provide 5-star catering services, or home delivered meals, our Food Service & Delivery Van can be tailored to your specific business needs. A variety of floor layout packages, including a wheelchair lift and securement area, are available to expand the services it can provide.

Features

- Seats 4-7 passengers plus driver – or 1 wheelchair and 800 lb capacity wheelchair lift option
- First ever multi-purpose meal delivery and crew transport vehicle
- Wood or patented SmartFloor flooring system with quick clean ABS interior materials
- Wheelchair or walker storage mounted to rear partition
- Stainless steel meal box construction with slide-out trays
- Sub-zero cold and 190 degree hot storage
- Independent heating and cooling temperature control system with vent and fan air circulation
- Entry steps and grab bars for safer entry and exit
- Graphic wraps and/or decal applications

Color graphic wraps are a great way to advertise your business. Driverge can provide complex wrap applications for your vehicle or simple logo decals at our factory prior to shipping.

Slide-out racks on the hot side of the meal storage box.

Large slide-out trays in the cold section provide for quick loading and delivery.

Heavy-duty construction of the meal storage container keeps food secure while in transit.

Durable, steel partition in front of the food box section. This package allows for a storage area behind the 2nd row passenger seats.

Seating and Wheelchair Access Options

Driverge's Food Service & Delivery van can be built with a variety of designs, including wheelchair accessible options. Ask us for details on these and other floor layout packages:

- 3 passenger bench seat in second row, with storage area behind seats (shown at right)
- 6 second and third row passenger seats
- 4 second and third row passenger seats, plus side entry wheelchair lift and walk-in entry through the front passenger seat area

Solar Power Option

Driverge offers a roof-mounted solar panel package that provides for running the AC system and other battery power needs with the engine turned off. Ask your sales representative for details.
