FORD TRANSIT
MOBILE OFFICE

**Perfect for claims adjusters,
tradesman, contractors – or
any enterprise that needs to
conduct business on the road**

Top left: SmartSeats, LED lighting and a fold-out table provides ample workspace for two people.

Top right: Stationary metal partition provides a spacious rear cargo area to safely transport and store equipment.

Lower left: Work table is shown stowed in its movable compartment.

Lower right: 1000 watt power inverter with AC outlets

Keep Working While on the Road

Built on the popular Ford Transit, we add seating and an office area in the second row with a movable, flip-top work table that slides from between the seats. Combined with our innovative SmartFloor technology, the Mobile Office also allows for the quick removal of seats, adding unlimited flexibility to its many potential uses.

Mobile Office Features

- SmartFloor section with 2 removable seats
- Fold-out work table with storage compartment
- Exclusive walls and headliner safety tested to meet FMVSS 201U head impact requirements
- Durable metal partition creates a safe cargo area for transporting supplies and equipment
- Power inverter with AC outlets
- LED lighting in 2nd row and cargo area provides staff with the ability to work at all hours
- Altro non-skid vinyl flooring for added safety
- Optional racks, bins and shelving available to efficiently organize cargo section
- Additional enhancements by request
