

# Ideas made to move people

## ADA Hospitality Shuttles by Drivege®

If Americans with Disabilities Act (ADA) compliance is important to your business, look no further. Drivege, the leader in commercial accessibility, can equip your fleet with ADA-compliant rear lifts with 800-pound capacity. These well-equipped vans can accommodate one wheelchair plus six ambulatory passengers (including driver) or eight ambulatory passengers. Entranceway handrails and two-tier luggage rack help make loading and unloading easier.

## ADA Hospitality Shuttles

Comfortably seats one wheelchair plus six ambulatory passengers

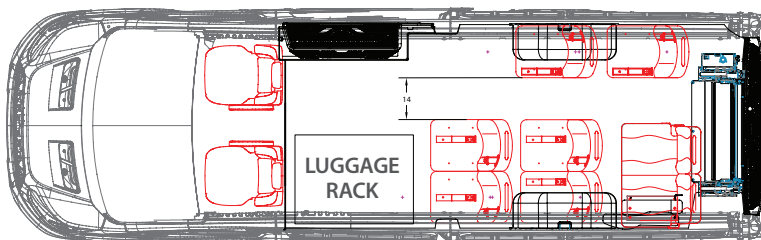

Faster and easier loading and unloading with entranceway handrail and two-tier luggage rack

ADA-compliant rear lift with 800-pound capacity

## ADA Hospitality Shuttle Floor Plan

Available on Ford, Mercedes-Benz or RAM platforms, this conversion allows for either eight ambulatory passengers or six ambulatory and one wheelchair passenger. The wheelchair would replace the two seats depicted in the driver's side fourth row below.

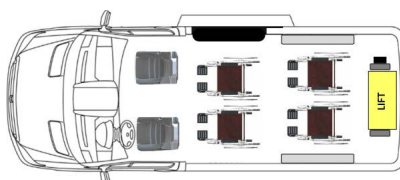

Help travelers identify your vans while building brand awareness with customized van marques.

## Flexible Floor Plans with SmartFloor™

Driverge's proprietary SmartFloor system allows for quick and easy movement of seats and wheelchair positions nearly anywhere within a vehicle. We will work with your team to design shuttles that will delight your customers and drivers alike. Depicted are just a few possibilities.

SWB Side Lift 2 Passenger + 3 WC

SWB Rear Lift 2 Passenger + 4 WC

SWB Rear Lift 3 Passenger + 3 WC
