

Ideas made to move **business**

Vocational Vans

by Drivege Vehicle Innovations

IF YOU CAN SPEC IT, WE CAN BUILD IT.

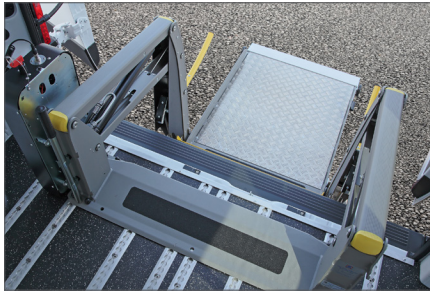

Drivege Vehicle Innovations is one of the nation's largest upfitters of commercial vans. Our design consultants, customer service representatives, designers and craftsmen are all focused on collaboration and bringing your ideas to life. We design and build customized vans used for:

- Contractor Services: HVAC, Plumbing, Electrical, General Contracting and More
- Medical Device Transport
- Final Mile Delivery
- Food Delivery & Catering – Refrigerated Vans Included
- Equipment/Large Cargo Delivery

Climate Control/Refrigeration

**If we win your business,
you'll win in more ways than one.**

- We can scale for local, regional, or national needs
 - Manufacturing facilities in four US markets
 - OEM bailment pools and chassis agreements
- We have a network of 300+ service centers across the country
- Our upfit quality is certified by Ford, RAM and Mercedes-Benz
- All our modifications will meet OEM standards for fit, finish and safety
- Your OEM chassis warranties will stay in full affect
- Our people are focused on your needs and on your budget

**We install components of all types
and from most manufactures**
